

# "PhonPhai" App fights against COVID-19. MHVs notify of suspected patients.

The Thai Red Cross Society by Relief and Community Health Bureau, cooperating with Thai Red Cross Chapters and provincial public health

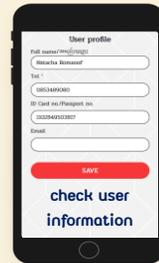

by offering 5 kg rice as a reward to MHVs who notify public health officers, and are already verified, for further implementation of disease control as regulated.

MHVs just simply notify of suspects with COVID-19 via "PhonPhai" App according to the 4 steps as follows.

## Download "PhonPhai" App.

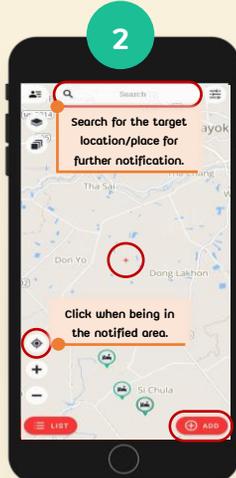

Type the word "PhonPhai" on App Store / Google Play.

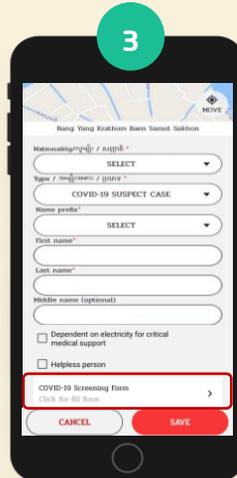

A MHV logs in by username/password using ID card no./passport no.

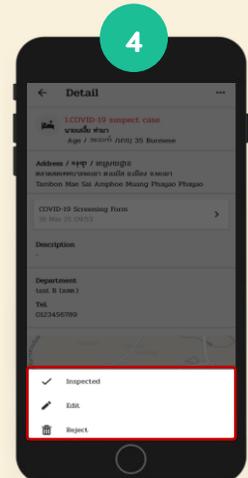

Click "COVID-19 Suspected cases" to notify of the suspect.

Choose the location of the suspect. Next, click "ADD."

Fill in the info./the screening form of the suspect. Next, click "SAVE."

The information is verified and screened by the public health officer.

After verification, the system will display a tick mark before the request.

**Note:** To notify public health officers of suspects with COVID-19 for further implementation of disease control as regulated.

All information must be screened and confirmed by MHVs as real suspects with COVID-19.
